

FV 130.2 with Thermolabel Pots & Pan washer

Designed to handle one of the toughest tasks in the kitchen.

- The FV 130.2 and FV 250.2 utensil washers are equipped with the very latest state of the art MIKE 2 fully electronic control system.
- The well thought-out door design provides first class access to the washing chamber, allowing all types and sizes of pots and pans, GN containers, trays, cooking utensils, storage boxes and crates, and much, much, more.
- **Stainless steel wash and final rinse system** incl. ascending pipes
- **AktivPlus fine mesh filter system** ensures outstanding cleaning performance, thanks to the multi-filtered wash water.
- **Installation with connection kit**, (water, waste water and power) allows for fast and economic commissioning. With the integral drain pump, a waste discharge height of up to 700 mm is possible.
- **Sloping and tented ceiling**, prevents washing solution from dripping onto washed items.
- **Double-walled machine** with additional insulation
- **Smooth and easy to clean** inner walls free of otherwise inconvenient pipework.
- **Self-cleaning programme.**
- **Fully electronic control** system with touch sensitive keypad and infrared interface.
- **Deep drawn wash tank** with rounded contours.
- **Aqua-Stop System**, with base drip tray. Superb operating security due to the automatic water leakage detection control. High protection of all integral machine components
